

QUARTERLY REPORT & APPENDIX 4C 30 SEPTEMBER 2018

Knosys Limited ABN: 96 604 777 862 ASX: KNO

Suite 9.08, Level 9 2 Queen St Melbourne, Victoria, Australia, 3000

www.knosys.it

CURRENT HIGHLIGHTS

- A second consecutive quarter of positive cashflow, with net operating cash inflow of \$0.4m
- Successful completion of a fully underwritten rights issue raising \$2.6m in August 2018
- Cash balance of \$3.8m million at 30 September 2018 and a strengthened balance sheet
- Total licences on issue now over 36,000, up over 100% in past 12 months
- Sales pipeline increased by 100% compared to the previous quarter

Knosys Limited (ASX: KNO) ("Knosys" and "**Company**") is pleased to report another strong quarter in terms cashflow and operations.

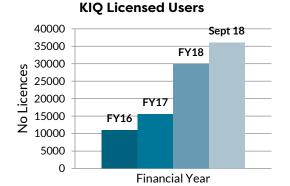

During the quarter Knosys finalised the extension of a major long-term contract with its largest customer, ANZ, for a further 3 years, plus two 1 year options, with an expanded user base. With Singtel and Optus now onboard as major customers, Knosys is proving itself as a leading vendor of knowledge management solutions in the

region.

The total licence count at September 2018 was over 36,000, representing a 100+% increase compared to September 2017.

The total user licences will increase further in the December 2018 quarter, mainly due to the implementation of Knosys software within Singtel's Singapore operations. The continued growth in user licence numbers is displayed in the adjacent chart.

Knosys Managing Director John Thompson said "In the past quarter, we have successfully

laid the foundation for the next stage of growth. With the support of new and existing investors we have significantly improved our balance sheet and provided funding for operations moving forward."

"With the capital raising now behind us our intention is to focus on building our sales and marketing capabilities, while continuing to invest in the KnowledgelQ (**KIQ**) product to release new features towards the second half of FY19."

"We have established an active M&A process to identify companies who are delivering innovative new solutions that automate processes, increase productivity, or reduce risk within a business. Whilst early stage, this initiative may offer the opportunity to accelerate our growth by delivering complementary products to an expanded customer base.

Appendix 4C Quarterly statement of cash flows

The ASX Appendix 4C quarterly statement is attached to this report.

The cash balance at 30 September 2018 was \$3.8 million with net operating cash inflows of \$372k for the quarter, including inflows of \$1.6m from sales revenues which includes over \$1 million from the newly extended contract with Knosys' long term major customer, ANZ bank.

Gross operating cash outflows were inflated by the one off costs for recruitment fees and annual bonus payments.

Cashflows from Finance Activities for the quarter included new capital inflows of \$2.65m (less costs) raised from the fully underwritten the rights issue in August 2018.

As required in Section 9 of the Appendix 4C, gross operating outflows for the December 2018 Quarter are estimated at \$950k of operating cash outflows, and \$70k of capital expenditure is related to the office relocation into larger premises.

The Appendix 4C does not allow for estimates of operating cash inflows, however the company estimates that the gross operating cash outflows will be more than offset by operating cash inflows in the December 2018 quarter.

The Company's revenue model has predominantly been based on billing customers annually in advance. This is reflected in the quarterly cash flow fluctuations. Licence fees invoiced annually in advance are recognised as revenue in the financial accounts each month as the revenue is earned evenly over a 12 month period.

Higher customer cash receipts in the June/July of each year, due to large annual licence renewals, and lower receipts in other months reflect this revenue model. However, the addition of Singtel and Optus as major customers will now provide a spread of cash inflows to Knosys across other quarterly cashflow periods.

Notes

- 1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
- If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
